Professional Profile

Full stack web developer with a focus on frontend and UX/UI design, specialized in React and modern technologies. With over two years of experience, I have created intuitive and optimized digital solutions for an enhanced user experience. Passionate about continuous improvement and developing efficient products that combine design and functionality. Skilled in managing projects from conceptualization to implementation, ensuring quality and performance.

Work Experience

Freelance Web Developer

July 2023 – March 2025

- Developed freelance web projects using React, PHP, JavaScript, and occasionally WordPress.
- Designed and prototyped interfaces in Figma, prioritizing user experience.

Front End Developer - Pragma

June 2022 - July 2023

- Developed frontend components using HTML5, CSS3 (MaterializeCSS), JavaScript, and PHP (Laravel).
 - Implemented key modules in an institutional system, such as attendance tracking, payments, and informational sections.
 - Collaborated on backend development and MySQL database management within an MVC architecture.
-
